INSTITUTION FREQUENTLY UPDATES ITS IT FACILITIES INCLUDING Wi-Fi

College aims at providing the futuristic facilities to its students so that they can utilize these resources to reach greater heights. To enable this, the institution frequently updates its IT facilities to provide its students with the best of facilities. Our classrooms have been equipped with LCD projectors and most of them are supported by audio visual systems. The entire campus is monitored by CCTV facility. The CCTV installed at strategic places help monitor the campus activities. Wi-Fi is available at various labs and staff rooms. Students are given limited accessibility to this facility. The marks attained by each student after every examination is updated on the automated system. This allows the students to review the marks being forwarded to the university and report any mistakes that might have been made. Information about upcoming events is available on the website. This information includes the time and date along with details about the event. Following the completion of the event, pictures and minutes of the event are also uploaded for easy access. This allows the parents to be aware of the programs being conducted in college as well.

For easier communication, circulars including important notices to students and parents are also posted online. The academic calendar as well as the course information is also updated in the beginning of every academic year. The technology at college is constantly updated.
