## WASTE MANAGEMENT IN THE COLLEGE

### **Solid Waste Management:**

The institution takes all measures required to ensure that the campus is free of plastic items and other wastes that harm the environment. All departments and classrooms are provided with dustbins for dry wastage which are emptied every evening. Segregation of waste from the dustbins is done in other strategic locations, thus maintaining the Campus and keeping it clean and green.

### **Liquid Waste Management:**

Drinking water facility is arranged in every building of the campus. Wastage of drinking water is restricted through proper monitoring. Waste water is properly drained out to maintain the greenery in the campus as well as providing ecologically aesthetic environment Proper drainage system is arranged for all the buildings of the campus

### **E-Waste Management:**

The condemned batteries and damaged computers are disposed through outside agencies. The low configured computers are donated to nearest schools Other E-waste materials are properly disposed Awareness programmes are initiated on E-waste management.
